

ZFX Theatrical Update

July 27, 2007

EXPANSION IN SCENIC REPOIRTE

ZFX is proud to announce that we're stepping outside the "flying box". We have expanded our scenic offerings with a full line of scenery, props and costumes for Disney's *High School Musical*.

ZFX is excited about this opportunity to broaden our offerings to clients. *High School Musical* has been on fire all around the country for the last year and shows no signs of slowing down.

Amenities for this set include two wide-screen monitors, eight large TV tubes, two confetti volcano units and two 18-foot inflated air dancers with fans. In addition are professionally designed and printed vinyl signs as well as a large electrically lit sign displaying "High School Musical".

The set's electrically lit sign

Costumes include the plush mascot, 12 basketball players, 12 cheerleaders and over 75 Wildcat and East t-shirts and sweatshirts. Optimal cast size is 12 principals and 40 ensemble, but a cast of 80 to 100 can be easily supported.

The set will be available after its August run in Music Theatre of Louisville's production at Iroquois

Ampitheater, Louisville, KY. To visit the ampitheater's photo gallery, go to www.iroquoisamphitheater.com.

ZFX TO BUILD NEW PETER PAN SET

Finally, we have the time, the space and the expert personnel free to devote their energy to building a new *Peter Pan* set.

Fabricating a smaller *Pan* set has been on the ZFX wish list for some time, and we are excited that our ideas are coming to fruition. The goal is for the sense of adventure and whimsy that this classic musical embodies to be tangible through the scenery.

are coming to fruition. The goal is for the sense of adventure and whimsy that this classic musical embodies to be tangible through the scenery.

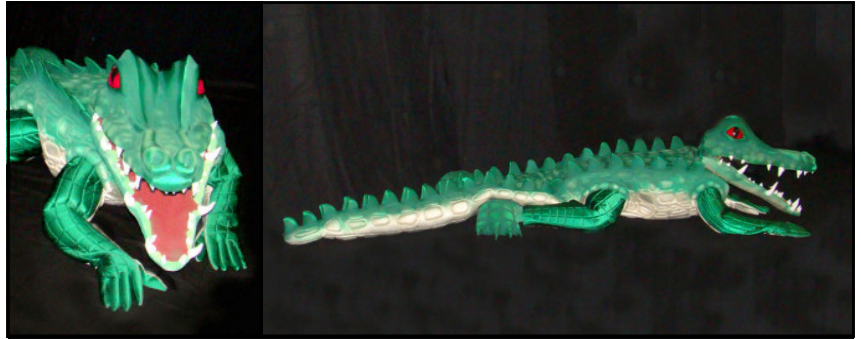

Scenic Supervisor Karl Anderson's vision for the project is "a fantasy-filled visual adventure". He pictures Peter "flying from the Darling nursery through a magical Neverland and across a fanciful Pirate Ship back to the home of childhood."

Once completed, the set will be on tour with Park Avenue Worldwide through April of 2008. For rental inquiries after this date, call 502.637.2500 extension 237.

HE'S GREEN AND HE'S MEAN!

Featured in our costume collection is a work of art. Our Croc looks so real you won't want to get too close.

And he comes complete with battery powered glowing red eyes!

Croc: Vicious villain or just a ham for the camera?

OLD FAVORITES

Cathy Rigby as Peter Pan

As always, one-stop shopping is still available for *Peter Pan* and Disney's *Beauty & the Beast*, including extensive costume collections, professional sets, props and, of course, amazing flying effects.

Specialty effects and props for other flying productions round out the theatrical menu. Rentable pieces for the *Wizard of Oz* include Glinda's floating bubble, the Wizard's hot air balloon basket and an automated spinning tornado. An enchanted flying carpet is available for productions of *Aladdin*.

Scenery and characters from our Premium *Beauty & the Beast* collection

Clients looking to avail themselves of ZFX's specialty items should visit www.zfxflying.com or call 502.637.2500.
